

# DATA SHEET

## Extension wire Type K 2 x 0,20 mm

### Technical data

Extension wire	
Operating temperature	-200...+260 °C (short time up to 300 °C)
Test Voltage	Eff. 500 V
Construction extension wire	NiCr-Ni, Type K (IEC584), 2 x 0,2 mm, solid
Construction core insulation	PTFE, green/white, max. Temp. 260 °C
Accuracy	IEC 584 Class 1
Colour code	+ Pol green, - Pol white
Environmental data	RoHS conform

### Article number

Extension wire Type K 2 x 0,20 mm	0231 0082
-----------------------------------	-----------

### Application

Extension cable for thermocouples type K (Temperature measurement) conform to IEC 584 standard.
